

## Briefer

### **City Benchmarking on Public Private Partnership (PPP) for Sustainable Development Goals (SDGs)**

May 23-25, 2023

Seoul, Republic of Korea

### **Rationale**

CityNet Secretariat with Seoul Metropolitan Government is organizing a capacity building program to increase capacities of city practitioners on Public Private Partnerships for Sustainable Development Goals.

The program invites city experts to learn and share successful local PPP projects. This is with the view of the need to increase capacities of CityNet members to overcome financial bottlenecks and help them to be at the level of international standards with multilateral development banks and private sector on the concept of PPP.

The program develops sessions and refreshers on PPP, reintroducing its concept, reviewing terminologies, structure, risk assessment, and management. The program will also help strengthen the case that successful PPP does not only bring economic value but also bring social value for people and planet, thus linked with the attainment of SDGs. The program is peer-based in approach thus will rely on the participant's expertise and experience in generating added value for the program.

## **Program Objectives**

The general program is designed to create a select city-level officials with enhanced knowledge and skills on urban infrastructure financing. The other objectives are as follows:

1. To reintroduce PPP concepts, insights, and current global / regional trends demonstrating PPP as a viable financing option.
2. To enhance links between the value of PPPs for SDGs.
3. To share successful city-level PPP projects and analyse success factors and replicability.
4. To learn successful PPP for SDGs projects in Seoul and South Korea
5. To develop city action plans
