Re: 2017-2018 Cluster Call for Proposal

Dear **CityNet Members**:

CityNet clusters have been bringing in our members together on relevant common themes since 2003. The four current clusters – Climate Change, Disaster, Infrastructure, and Sustainable Development Goals – have had organized a wide range of sustainable activities for our members in the past years.

It is our pleasure to keep supporting our cluster's initiatives by announcing the 2017-2018 Cluster Call for Proposal.

For this year, we are reconfiguring our cluster support mechanism into a grant program by selecting and supporting one (1) project out from the number of proposals we will be receiving. The selected proposal will be granted up to 15,000 USD for a 12-month period implementation starting September 2017.

Deadline for the submission of the Call for Proposal is on July 28, 2017, Friday. Please see attached for the guidelines and the proposal format. We will observe the evaluation procedures as indicated in the attachment for selecting the best proposal.

It is strongly expected that your proposal include joint activities with your cluster members.

Please contact Paulie Mora or Jae Hyun Park, CityNet Program Officers, at programs2@citynet-ap.org and/or jaehyun@citynet-ap.org for urgent queries.

Thank you for your continuous collaboration with CityNet.

Sincerely,

Vijay Jagannathan
Secretary-General
