**Dear CityNet Cluster Leads and Co-Leads;**

Re: 2019 Call for Proposal for the Cluster Grant Program

CityNet clusters have been bringing in our members together on relevant common themes since 2003. The four current clusters – Climate Change, Disaster, Infrastructure, and Sustainable Development Goals (SDGs) – have had organized a wide range of sustainable activities for our members in the past years.

As our leads and co-leads, your leadership to our clusters has been instrumental in ensuring that the Network remains committed to its long-term goals.

As we continue to support our cluster initiatives, we are announcing the 2019 Call for Proposals in our Cluster Grant Program.

For this round, we will select two (2) proposals that will be granted up to 10,000 USD each for a maximum of 12-month implementation period.

It is strongly encouraged that your proposal includes joint activities with your cluster lead, co-lead, and/or other cluster members.

Cluster proposals will be presented at the 37<sup>th</sup> Executive Committee Meeting in Da Nang on November 21, 2018. Our ExCom members will select the best cluster proposals for the 2019 round.

Please see attached the guidelines and the proposal format.

Deadline for the submission of the Call for Proposal is on November 2, 2018. Please email the complete proposal at [programs2@citynet-ap.org](mailto:programs2@citynet-ap.org).

Please contact Paulie Mora, CityNet Project Manager, at [programs2@citynet-ap.org](mailto:programs2@citynet-ap.org) for urgent queries.

Thank you for your continuous collaboration with CityNet.

Sincerely,

Vijay Jagannathan  
Secretary-General
